International Recruitment Solutions

## Specialist Maritime Recruitment Solutions

# Maritime Specialists

At Erik Juhler, our maritime consultants are specialists in their field, with an exceptional understanding of your recruitment needs.

Working across onshore technical, commercial and marine operations roles, as well as sea-going marine engineers and deck officers, we provide both permanent and contract recruitment solutions.

We work closely with ship owners, ship managers, oil majors and maritime consultancies, delivering highly bespoke services with outstanding results.

We focus on cultural as well as technical requirements, ensuring that we find the best candidate for your role.

**Around 90%  
of world trade  
is carried  
out by the  
international  
shipping  
industry**

Our economy simply could not function if it were not for ships and the shipping industry. Without shipping, intercontinental trade, the bulk transport of raw materials and the import/export of affordable food and manufactured goods would not be possible.

# Our Services

We recruit both temporary and permanent staff across the shipping and marine sectors both nationally and internationally.

Our full service model provides organisations with recruitment services which have been tailored to the business and its goals.

By managing the entire hiring process, we take all of the stress out of recruitment.
